

## CONGRESSIONAL BUDGET OFFICE COST ESTIMATE

September 26, 2000

### **H.R. 3577**

#### **An act to increase the amount authorized to be appropriated for the north side pumping division of the Minidoka reclamation project, Idaho**

*As ordered reported by the Senate Committee on Energy and Natural Resources  
on September 20, 2000*

H.R. 3577 would increase, by \$2.8 million, the total amount authorized to be appropriated to the Bureau of Reclamation to complete the north side pumping division of the Minidoka reclamation project in Idaho. That amount includes \$250,000 that has already been provided for the current year. Based on information from the agency, CBO estimates that implementing this legislation would increase discretionary spending by about \$2.5 million over the 2001-2005 period, assuming appropriation of the authorized amount. H.R. 3577 would not affect direct spending or receipts; therefore, pay-as-you-go procedures would not apply.

H.R. 3577 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments. Enacting this legislation would authorize the bureau to reimburse the affected irrigation district in the state of Idaho for the federal share of the district's costs to complete the Minidoka project.

On April 13, 2000, CBO transmitted a cost estimate for H.R. 3577, as ordered reported by the House Committee on Resources on April 5, 2000. The two versions of the legislation are identical, as are our cost estimates.

The CBO staff contact is Felix LoStracco. This estimate was approved by Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.
