

**CONGRESSIONAL BUDGET OFFICE  
COST ESTIMATE**

May 4, 2006

**H.R. 2066**

**General Services Administration Modernization Act**

*As ordered reported by the Senate Committee on Homeland Security  
and Governmental Affairs on May 2, 2006*

H.R. 2066 would amend federal law to establish a Federal Acquisition Service by combining the assets and services of the Federal Supply Service and the Federal Technology Service. The Federal Supply Service purchases goods and services for the federal government, and the Federal Technology Service provides information technology to federal agencies. In addition, the legislation would authorize re-employment incentives for certain civilian federal employees.

Because the legislation would restructure the agencies that procure goods and services for federal agencies and would not provide any new authorities for federal procurement or civilian acquisition personnel, CBO estimates that implementing H.R. 2066 would have no significant effect on the budget and would not affect direct spending or revenues.

H.R. 2066 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would not affect the budgets of state, local, or tribal governments.

On May 19, 2005, CBO provided a cost estimate for H.R. 2066 as ordered reported by the House Committee on Government Reform on May 5, 2005. The two pieces of legislation are similar, and our cost estimates are the same.

The CBO staff contact for this estimate is Matthew Pickford. This estimate was approved by Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.
