

CONGRESSIONAL BUDGET OFFICE
COST ESTIMATE

June 26, 2014

S. 1965

A bill to amend the East Bench Irrigation District Water Contract Extension Act to permit the Secretary of the Interior to extend the contract for certain water services

*As ordered reported by the Senate Committee on Energy and Natural Resources
on June 18, 2014*

S. 1965 would authorize the Secretary of the Interior, acting through the Bureau of Reclamation, to extend the water contract between the United States and the East Bench Irrigation District for six additional years or until a new long-term contract is executed, whichever is earlier. Based on information from the Bureau of Reclamation, CBO estimates that enacting the legislation would not affect the federal budget. Because enacting S. 1965 would not affect revenues or direct spending, pay-as-you-go procedures do not apply.

The Bureau of Reclamation supplies irrigation water from the Clark Canyon Dam and Reservoir project to the East Bench Irrigation District under an interim contract negotiated in 2006 after the original contract expired. Although the interim contract expired at the end of 2013 both the bureau and the district continue to operate under the terms of the expired contract and expect to do so until a new contract is executed.

S. 1965 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would not affect the budgets of state, local, or tribal governments.

The CBO staff contact for this estimate is Aurora Swanson. The estimate was approved by Theresa Gullo, Deputy Assistant Director for Budget Analysis.
