**H.R. 3667  
Missisquoi and Trout Rivers  
Wild and Scenic River Study Act of 2008**

*As ordered reported by the House Committee on Natural Resources on April 30, 2008*

H.R. 3667 would require the National Park Service (NPS) to study certain segments of the Missisquoi River and the Trout River in Vermont for potential addition to the Wild and Scenic Rivers System. Based on information provided by the NPS and assuming the availability of appropriated funds, CBO estimates that implementing H.R. 3667 would cost about \$300,000 over the next three years. Enacting H.R. 3667 would not affect revenues or direct spending.

H.R. 3667 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.
