**S. 2292  
Global Anti-Semitism Review Act of 2004**

*As reported by the Senate Committee on Foreign Relations on April 29, 2004*

S. 2292 would require the Secretary of State to submit a written report on acts of anti-Semitism around the world. The report would include a description of acts of violence or harassment against Jewish people and property in each country and the responses of the governments or those countries to such acts. The first report would be due within 180 days of enactment with information provided annually thereafter as part of the annual report on international religious freedom and the annual report on human rights. CBO estimates that implementing S. 2292 would not significantly increase costs to the federal government because much of the necessary information is currently gathered by the State Department for the two annual reports. The bill would not affect direct spending or receipts.

S. 2292 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would not affect the budgets of state, local, or tribal governments.
