

**CONGRESSIONAL BUDGET OFFICE  
COST ESTIMATE**

October 18, 2005

**H.R. 2875  
Public Lands Corps Healthy Forests Restoration Act of 2005**

*As ordered reported by the House Committee on Resources on September 22, 2005*

**SUMMARY**

H.R. 2875 would authorize the appropriation of \$75 million for fiscal years 2007 through 2011 for implementing restoration, conservation, and fire-prevention projects in national parks. Under the bill, the Public Land Corps would administer the projects, and youth conservation organizations would carry out the projects. Assuming appropriation of the specified amounts, CBO estimates that implementing the bill would cost \$5 million in 2007 and \$45 million over the 2006-2010 period. Enacting the bill would not affect direct spending or revenues.

H.R. 2875 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA) and would impose no costs on state, local, or tribal governments.

**ESTIMATED COST TO THE FEDERAL GOVERNMENT**

The estimated budgetary impact of H.R. 2875 is shown in the following table. The costs of this legislation fall within budget function 300 (natural resources and environment). CBO assumes that the bill will be enacted in fiscal year 2006, that the specified amounts will be appropriated for each fiscal year, and that outlays will follow historical trends. CBO estimates that implementing the bill would cost \$5 million in 2007 and by \$45 million over the 2006-2010 period for administering restoration, conservation, and fire-prevention projects in national parks. Spending of the additional \$30 million authorized by the bill would occur after 2010.

## **INTERGOVERNMENTAL AND PRIVATE-SECTOR IMPACT**

H.R. 2875 contains no intergovernmental or private-sector mandates as defined in UMRA and would impose no costs on state, local, or tribal governments.

## **PREVIOUS CBO ESTIMATE**

On October 18, 2005, CBO transmitted a cost estimate for S. 1238, the Public Lands Corps Healthy Forests Restoration Act of 2005, as ordered reported by the Senate Committee on Energy and Natural Resources on September 28, 2005. The two pieces of legislation are almost identical. However, S. 1238 would specify a permanent authorization of appropriation, while H.R. 2875 would specify the authorization of appropriation for 2007 through 2011. The cost estimates reflect that difference.
