**S. 2003
Watershed Restoration and Enhancement Agreements Act of 2006**

*As ordered reported by the Senate Committee on Energy and Natural Resources
on May 24, 2006*

S. 2003 would make the authority of the Forest Service to use appropriated funds to execute certain cooperative agreements with nonfederal partners permanent. Those agreements are used to facilitate watershed restoration projects on public or private land. Under existing law, the authority to use appropriations for this purpose will expire after fiscal year 2011. CBO estimates that enacting S. 2003, by itself, would have no impact on the federal budget. The bill would not authorize additional appropriations for watershed restoration projects and would not affect revenues or direct spending.

The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on the budgets of state, local, or tribal governments.
