

**CONGRESSIONAL BUDGET OFFICE
COST ESTIMATE**

May 10, 2011

**H.R. 1326
Furthering International Nuclear Safety Act of 2011**

As amended by the House Committee on Foreign Affairs on April 14, 2011

H.R. 1326 would require the Secretary of State to submit to the Congress the existing plan for international cooperation on operating nuclear power plants safely, and to provide subsequent reports on the implementation of that plan. In addition, the bill would require the United States to encourage parties to the Convention on Nuclear Safety to request more technical support from the International Atomic Energy Agency to help improve the safety of nuclear energy facilities. CBO estimates that preparing the reports and the other activities required by the bill would have no significant effect on the federal budget.

Pay-as-you-go procedures do not apply because enacting the bill would not affect direct spending or receipts.

H.R. 1326 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is Raymond Hall. This estimate was approved by Theresa Gullo, Deputy Assistant Director for Budget Analysis.
