**H.R. 674
Rota Cultural and Natural Resources Study Act**

*As ordered reported by the House Committee on Natural Resources
on April 24, 2013*

H.R. 674 would require the National Park Service (NPS) to conduct a study of the island of Rota, Commonwealth of the Northern Mariana Islands, to determine the suitability and feasibility of designating it as a unit of the National Park System. The NPS would have three years to complete the study and report to the Congress on its results.

Based on information provided by the NPS and assuming the availability of appropriated funds, CBO estimates that carrying out the study required by H.R. 674 would cost about \$300,000 over the next three years. Enacting the legislation would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply.

H.R. 674 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.
