Notes: Estimates are relative to CBO's March 20015 baseline.
 Assumes enactment near the end of calendar year 2015.

H.R. 3495 would give states the option to determine if any individual or entity, based on the individual's or entity's involvement in abortion, can participate in the state's Medicaid program. CBO expects not all states would choose to exclude such providers, thus the effects of H.R. 3495 would be smaller than the effects of a policy that permanently prohibits Planned Parenthood from receiving any federal funds.
