

CONGRESSIONAL BUDGET OFFICE
COST ESTIMATE

June 29, 2016

H.R. 5390
Cybersecurity and Infrastructure Protection Agency Act of 2016

*As ordered reported by the House Committee on Homeland Security
on June 8, 2016*

H.R. 5390 would rename the National Protection and Programs Directorate (NPPD) of the Department of Homeland Security (DHS) as the Cybersecurity and Infrastructure Protection Agency. The bill also would consolidate certain missions of NPPD under two new divisions: the Cybersecurity Division and the Infrastructure Protection Division. Based on information from DHS, CBO has concluded that the bill would largely codify the department's existing plans to reorganize NPPD and would not impose any new operating requirements on the agency. On that basis, CBO estimates that implementing H.R. 5390 would have no significant effect on the federal budget.

Enacting H.R. 5390 would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply.

CBO estimates that enacting H.R. 5390 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2027.

H.R. 5390 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is William Ma. The estimate was approved by H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.
