

**CONGRESSIONAL BUDGET OFFICE
COST ESTIMATE**

June 14, 2016

**S. 2348
Rapid DNA Act of 2016**

As reported by the Senate Committee on the Judiciary on May 12, 2016

S. 2348 would direct the Federal Bureau of Investigation (FBI) to issue standards and procedures for the use of certain automated processes to analyze DNA samples. The agency is currently undertaking activities to prepare for increased use of such enhanced analyses. Based on information from the FBI, CBO estimates that enacting the bill would cost less than \$500,000 annually; such spending would be subject to the availability of appropriated funds.

Enacting the legislation would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply. CBO estimates that enacting S. 2348 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2027.

S. 2348 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would not affect the budgets of state, local, or tribal governments.

The CBO staff contact for this estimate is Mark Grabowicz. The estimate was approved by H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.
