

**CONGRESSIONAL BUDGET OFFICE  
COST ESTIMATE**

May 26, 2017

**S. 1028  
RAISE Family Caregivers Act**

*As reported by the Senate Committee on Health, Education, Labor, and Pensions  
on May, 11, 2017*

S. 1028 would require the Secretary of the Department of Health and Human Services, in consultation with the heads of other appropriate agencies, to establish and maintain a national strategy for family caregiving. In addition, the bill would require the Secretary to convene a Family Caregiving Advisory Council, the membership of which would consist of at least 9 members who are representatives of federal departments or agencies and up to 15 members who are not. The council would meet quarterly during the first year after enactment of the bill, and at least three times in each subsequent year.

CBO estimates that implementing S. 1028 would cost \$1 million over the 2017-2021 period; such spending would be subject to the availability of appropriated funds. Those costs would stem mostly from new staff to coordinate the national strategy and support the council and from travel and per-diem costs for the council.

Enacting S. 1028 would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply. CBO estimates that enacting S. 1028 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2028.

S. 1028 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is Christina Hawley Anthony. The estimate was approved by H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.
