Source: Congressional Budget Office.

Notes: Estimates are relative to CBO's January 2019 Baseline. Assumes enactment in May 2019.

H.R. 2157 would provide supplemental appropriations for fiscal year 2019 to respond to various natural disasters and designate those amounts as emergency requirements pursuant to section 251 of the Balanced Budget and Emergency Deficit Control Act of 1985. The limits on discretionary budget authority established by the Budget Control Act of 2011 (P.L. 112-25), as amended, would be adjusted to accommodate this funding. Provisions of Title V of H.R. 2157 would modify the Federal Emergency

Management Agency's authority to spend balances of previously appropriated non-emergency funds and would designate those changes as emergency requirements. As a result, emergency-designated spending in the Homeland Security jurisdiction would increase and be offset by a corresponding reduction in non-emergency spending in that jurisdiction.
