

H.R. 2881, Secure 5G and Beyond Act of 2019

As ordered reported by the House Committee on Foreign Affairs on October 30, 2019

By Fiscal Year, Millions of Dollars	2020	2020-2024	2020-2029
Direct Spending (Outlays)	0	0	0
Revenues	0	0	0
Increase or Decrease (-) in the Deficit	0	0	0
Spending Subject to Appropriation (Outlays)	*	*	*
Statutory pay-as-you-go procedures apply?	No	Mandate Effects	
Increases on-budget deficits in any of the four consecutive 10-year periods beginning in 2030?	No	Contains intergovernmental mandate?	No
		Contains private-sector mandate?	No
* = between zero and \$500,000.			

H.R. 2881 would require the Administration to develop and submit to the Congress a strategy to:

- Ensure the security of new systems and infrastructure for mobile telecommunications in the United States and other countries;
- Protect the competitiveness of U.S. businesses and the privacy of consumers that use those systems; and
- Ensure that organizations that set standards for those systems and infrastructure are impartial.

The bill would require the National Telecommunications and Information Administration to coordinate implementation of that strategy and to report to the Congress on the actions it takes to do so.

Using information from several federal agencies about similar ongoing efforts, CBO expects that most of the bill's requirements would be met under current policies and programs. CBO estimates that implementing the bill would cost less than \$500,000 over the 2020-2024 period; such spending would be subject to the availability of appropriated funds.

The CBO staff contact for this estimate is Sunita D'Monte. The estimate was reviewed by Leo Lex, Deputy Assistant Director for Budget Analysis.
