

**H.R. 4237, Advancing Cybersecurity Diagnostics and Mitigation Act**

As ordered reported by the House Committee on Homeland Security on October 23, 2019

By Fiscal Year, Millions of Dollars	2020	2020-2024	2020-2029
Direct Spending (Outlays)	0	0	0
Revenues	0	0	0
Increase or Decrease (-) in the Deficit	0	0	0
Spending Subject to Appropriation (Outlays)	*	*	not estimated
Statutory pay-as-you-go procedures apply?	No	<b>Mandate Effects</b>	
Increases on-budget deficits in any of the four consecutive 10-year periods beginning in 2030?	No	Contains intergovernmental mandate?	No
		Contains private-sector mandate?	No
* = between zero and \$500,000.			

The Cybersecurity and Infrastructure Agency (CISA) provides federal, state, and local government agencies with tools to rapidly identify and respond to cybersecurity risks through the Continuous Diagnostics and Mitigation (CDM) program. H.R. 4237 would codify that program.

H.R. 4237 also would require CISA to report to the Congress on the implementation of the program and the effectiveness of CDM. On the basis of information from CISA about similar reporting requirements, CBO estimates that implementing H.R. 4237 would cost less than \$500,000 over the 2020-2024 period; such spending would be subject to the availability of appropriations.

The CBO staff contact for this estimate is Aldo Prospero. The estimate was reviewed by Leo Lex, Deputy Assistant Director for Budget Analysis.
