

**H.R. 5338, Global Hope Act of 2019**

As ordered reported by the House Committee on Foreign Affairs on December 18, 2019

By Fiscal Year, Millions of Dollars	2020	2020-2024	2020-2029
Direct Spending (Outlays)	0	0	0
Revenues	0	0	0
Increase or Decrease (-) in the Deficit	0	0	0
Spending Subject to Appropriation (Outlays)	*	*	not estimated
Statutory pay-as-you-go procedures apply?	No	<b>Mandate Effects</b>	
Increases on-budget deficits in any of the four consecutive 10-year periods beginning in 2030?	No	Contains intergovernmental mandate?	No
		Contains private-sector mandate?	No
* = between zero and \$500,000.			

H.R. 5338 would authorize the Department of State, in coordination with other federal agencies, to address childhood cancer internationally by coordinating with the United Nations and other multilateral organizations and by partnering with private-sector groups. The bill also would require the department to report to the Congress on such efforts.

The U.S. Agency for International Development (USAID) provides grants for research, diagnosis, and treatment of noninfectious diseases such as childhood cancer in other countries. On the basis of information from USAID, CBO expects that the Department of State would coordinate with USAID to dedicate more of its budget to address childhood cancer. As a result, CBO expects that implementing the bill would not significantly change foreign-assistance programs. Satisfying the bill's reporting requirement would cost less than \$500,000 over the 2020-2024 period, CBO estimates. Such spending would be subject to the availability of appropriated funds.

The CBO staff contact for this estimate is Ann E. Futrell. The estimate was reviewed by Leo Lex, Deputy Director of Budget Analysis.
