Millions of dollars, by fiscal year.	2018	2019	2020	2021	2022	2023	2024	2025	2026	2027	2018- 2022	2018- 2027
<b>INCREASES OR DECREASES (-) IN REVENUES (f)</b>												
2. Extend CHIP funding through 2019 (b, c)												
On-budget revenues	-203	88	148	51	0	0	0	0	0	0	84	84
Off-budget revenues	-113	49	81	28	0	0	0	0	0	0	45	45
13. Repeal and replace the Affordable Care Act (a, b)												
On-budget revenues	-55,000	-60,000	-85,000	-100,000	-105,000	-115,000	-120,000	-120,000	-120,000	-120,000	-405,000	-1,000,000
Off-budget revenues	-11	-12	-17	-20	-21	-23	-24	-24	-24	-24	-81	-200
14. Reform the medical liability system (b, c)												
On-budget revenues	47	211	373	643	748	800	856	917	980	1,047	2,022	6,621
Off-budget revenues	27	95	191	286	326	344	364	384	406	428	925	2,851

**Memorandum**

Medicare Total, Direct Spending outlays only (g)	120	1,027	-2,015	-3,710	-3,946	-4,388	-148	2,212	-13,997	-22,282	3,326	3,326
<b>Net Effect on the Deficit</b>												
Extend CHIP funding through 2019 (h)												
On-budget	-1,592	1,097	2,028	1,793	0	0	0	0	0	0	3,326	3,326
Unified budget total	-1,479	1,048	1,947	1,765	0	0	0	0	0	0	3,281	3,281
Reform the medical liability system (h)												
On-budget	-224	-1,729	-4,497	-7,351	-8,160	-8,512	-8,863	-9,651	-10,359	-11,048	-21,962	-70,395
Unified budget total	-251	-1,825	-4,688	-7,638	-8,486	-8,856	-9,227	-10,035	-10,764	-11,476	-22,887	-73,246

**Notes:** Components may not sum to totals because of rounding.

- a. The Administration did not provide specific information on what set of policies would generate the estimated savings for the Medicaid program or for repealing and replacing the Affordable Care Act. CBO's estimates match the Administration's because we expect that these savings are attainable. CBO is not able to provide an estimate of total savings for the Medicaid program because the proposal to repeal and replace the Affordable Care Act does not include enough detail to estimate effects on spending for that program.
- b. Proposal would affect both direct spending and revenues, which are shown separately.
- c. Estimates do not include interactions with proposals to reform Medicaid or repeal and replace the Affordable Care Act.
- d. Medicare provisions include interactions with MA payments, the effect on Medicare Part A and B premiums, and TRICARE.
- e. In addition to the effects displayed here, the proposals to change TRICARE fees would affect mandatory outlays and receipts in functions 400 and 950.
- f. For revenues, positive numbers indicate a decrease in the deficit and negative numbers indicate an increase in the deficit.
- g. Some of the above policies would affect spending for multiple health care programs. The Medicare totals shown here reflect the combined effect of all proposed changes on federal spending for the Medicare program.
- h. Estimate reflects the effect of the policy on spending for mandatory health programs and federal revenues.

CHIP = Children's Health Insurance Program; MA = Medicare Advantage; TRICARE = the health plan operated by the Department of Defense.
