SSI = Supplemental Security Income; SNAP = Supplemental Nutrition Assistance Program.

The President's budget proposes this policy be included in the general provisions in the Department of State appropriations bill (section 7024(r) and (q)). CBO's reestimate of the President's budget classifies this policy as a change in discretionary spending, because if the policy were included as part of an appropriations bill, CBO would score the changes to the mandatory programs above as discretionary spending. However, if the policy were included in legislation other than an appropriations bill, CBO would score the changes to the mandatory programs above as mandatory spending in a cost estimate.
