The Statutory Pay-As-You-Go Act of 2010 establishes budget-reporting and enforcement procedures for legislation affecting direct spending or revenues. The net changes in outlays that are subject to those procedures are shown here.

H.R. 6192 would authorize the U.S. Mint to produce two \$1 silver coins to honor the 100th anniversary of the date when production of the "Morgan Dollar" ceased and production of the "Peace Dollar" began. Sales would be authorized to begin in calendar year 2021. Using information from the Mint, CBO estimates that sales of the coins would generate receipts in excess of production costs of about \$6 million over the 2020-2030 period. Those amounts would be recorded in the budget as offsetting receipts (a credit against direct spending).
