

**H.R. 7276, Desert Locust Control Act**

As ordered reported by the House Committee on Foreign Affairs on July 29, 2020

By Fiscal Year, Millions of Dollars	2020	2020-2025	2020-2030
Direct Spending (Outlays)	0	0	0
Revenues	0	0	0
Increase or Decrease (-) in the Deficit	0	0	0
Spending Subject to Appropriation (Outlays)	*	*	not estimated
Statutory pay-as-you-go procedures apply?	No	<b>Mandate Effects</b>	
Increases on-budget deficits in any of the four consecutive 10-year periods beginning in 2031?	No	Contains intergovernmental mandate?	No
		Contains private-sector mandate?	No
* = between zero and \$500,000.			

H.R. 7276 would require the Administration to establish an interagency working group to address the ongoing outbreak of desert locust in East Africa. It also would require the interagency working group, which would be led by the U.S. Agency for International Development (USAID), to provide the Congress with its plan to control the current outbreak, mitigate its adverse effects on food supplies, economic productivity, and political stability in the region, and address future outbreaks.

In March 2020, USAID provided \$20 million for critical surveillance and pest control equipment, monitoring and detection training, and emergency food assistance in the locust-affected areas. Under current law, USAID coordinates the activities of several federal departments and agencies to monitor the evolving situation in East Africa and to support the United Nations Food and Agriculture Organization and other stakeholders in the region.

On the basis of information from the USAID, CBO estimates that providing the required reports would cost less than \$500,000 over the 2020-2025 period. Such spending would be subject to the availability of appropriated funds.

The CBO staff contact for this estimate is Etaf Khan. The estimate was reviewed by Leo Lex, Deputy Director of Budget Analysis.
