| 2031?   | Tes    | Contains private-sector mandate?    | No        |

S. Con. Res. 14, the Concurrent Resolution on the Budget for Fiscal Year 2022, instructed some committees of the House of Representatives to recommend legislative changes, which would increase deficits up to a specified amount over the 2022-2031 period. As part of this reconciliation process, the House Committee on Financial Services approved legislation on September 14, 2021, with provisions that would increase deficits.

The legislation would provide funding to the Departments of Housing and Urban Development (HUD) and Agriculture (USDA) to expand affordable housing by investing in public housing and rental properties, providing rental assistance, and making grants to assist certain low-income home buyers to obtain mortgages. The bill also would provide funding to the Department of the Treasury

to support affordable housing for low-income families, the Small Business Administration to support minority and small businesses, and the Federal Emergency Management Agency for the National Flood Insurance Program.

The legislation would provide the following amounts for the specified activities:

- \$241 billion for programs to expand affordable housing for low-income communities by constructing and rehabilitating public housing, rental properties, and homes and by providing rental assistance;
- \$37 billion for subsidies, capital advances, and grants to states and property owners that invest in affordable housing in lowincome communities and provide supportive services to people with disabilities and to the elderly;
- \$36 billion for direct loans and grants to rehabilitate multifamily properties, improve energy and water efficiency, update floodrisk maps to provide means-tested discounts for certain households, and for programs to support minority and small businesses; and
- \$11 billion for programs to support certain low-income borrowers to obtain mortgages through down payment support and by offering certain mortgages with below market interest rates.

In total, the committee's reconciliation recommendations would appropriate \$325 billion in budget authority to new and existing programs—a substantial increase in funding for those activities. As a result, CBO's estimates of the rate at which federal agencies, states and localities, and other entities would spend those new funds is subject to considerable uncertainty, as is the question of whether those entities could spend all of the new funds within the allotted time.

Based on historical spending patterns for similar programs, CBO expects that a portion of the amounts appropriated for some programs would not be spent and for other programs would be spent after 2031. CBO estimates that enacting the legislation would increase the deficit by \$312 billion over the 2022-2031 period.

The costs of the legislation, detailed in Table 1, fall within budget functions 370 (commerce and housing credit), 450 (community and regional development), 600 (income security) and 700 (veterans benefits and services).

The CBO staff contacts for this estimate are:

Elizabeth Cove Delisle (Housing Assistance) Paul B.A. Holland (Veterans Benefits) David Hughes (Small Business Administration) Robert Reese (Federal Housing Administration) Jon Sperl (Community and Regional Development) Aurora Swanson (Fannie Mae and Freddie Mac) Lindsay Wylie (Fair Housing Act)

The estimate was reviewed by Justin Humphrey, Chief of the Finance, Housing, and Education Cost Estimates Unit, H. Samuel Papenfuss, Deputy Director of Budget Analysis, and Theresa Gullo, Director of Budget Analysis.

Components may not sum to totals because of rounding.

CDBG = Community Development Block Grant; HUD = Housing and Urban Development; USICH = United States Interagency Council on Homelessness.

# Table 1. Estimated Budgetary Effects of Reconciliation Recommendations of the House Committee on Financial Services Notes

Budget authority reflects appropriations specifically provided in the legislation or amounts estimated by CBO.

After consulting with the House Committee on the Budget, CBO has assumed for this estimate that H.R. 3684, as passed by the Senate, has been enacted.

Mandatory funding provided in this act may be subject to the annual sequestration of mandatory spending required by the Budget Control Act of 2011, but CBO does not have sufficient information to determine which of the new budgetary resources that the Office of Management and Budget would determine are subject to those reductions or how the reductions would be applied. For that reason, the amounts shown in this table for new mandatory funding have not been reduced to account for possible sequestration.

Section 40201 would provide down payment assistance for first-time, low-income home buyers, as defined in the bill. CBO expects that the program would increase total mortgage volume over the 2022-2031 period, relative to CBO's baseline, a portion of which would be guaranteed by the Department of Veterans Affairs, Fannie Mae, or Freddie Mac. CBO estimates that the increases in mortgage volume for those programs would increase direct spending by approximately \$50 million over the 2022-2031 period.

Section 40202 would establish a program to make mortgages to low-income, first-time home buyers at below-market interest rates. The bill would require the Department of the Treasury to purchase and sell securities backed by those mortgages. CBO estimates those purchases and sales would, on net, cost \$50 million over the 2022-2031 period. Other budgetary effects include the costs of administering the program and guaranteeing loans to first-time home buyers, which CBO estimates would have a net cost of \$4 million over the 2022-2031 period.
