COST ESTIMATE

November 7, 2018

H.R. 2075
Crooked River Ranch Fire Protection Act

*As ordered reported by the Senate Committee on Energy and Natural Resources
on October 2, 2018*

H.R. 2075 would modify the boundary of the Deschutes Canyon-Steelhead Falls Wilderness Study Area in Oregon to exclude 688 acres of federal land. Because the act would not significantly affect how the Bureau of Land Management would administer the excluded land, CBO estimates that implementing H.R. 2075 would have no significant effect on the federal budget.

Enacting H.R. 2075 would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply.

CBO estimates that enacting H.R. 2075 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2029.

H.R. 2075 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act.

On August 18, 2017, CBO transmitted a cost estimate for H.R. 2075, the Crooked River Ranch Fire Protection Act, as ordered reported by the House Committee on Natural Resources on July 26, 2017. The two versions of the legislation are similar, and CBO's estimates of their budgetary effects are the same.

The CBO staff contact for this estimate is Janani Shankaran. The estimate was reviewed by H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.
