Unauthorized Appropriations and Expiring Authorizations

(In This Version: Appendix Material Is Sorted by Appropriation Act)

January 12, 2007
Notes

Numbers in the tables may not add up to totals because of rounding.

In separate versions of this report, the listings of public laws in the appendixes are displayed in three ways—by House authorizing committee, by Senate authorizing committee, and by appropriation act (following the structure of the appropriation laws enacted for 2006).
This report by the Congressional Budget Office (CBO) satisfies the requirements of section 202(e)(3) of the Congressional Budget and Impoundment Control Act, as amended. Required on or before January 15 of each year, the report is intended to assist the Congress in determining the authorizing legislation that should be in place before it considers the regular appropriation bills for upcoming fiscal year—in this case, fiscal year 2008, which begins on October 1, 2007.

Ordinarily, this annual report shows the total amount that the Congress has provided in appropriation acts for programs whose authorization has expired. However, only appropriations for the Departments of Defense and Homeland Security have been enacted for fiscal year 2007. Programs covered by all of the other appropriation acts are currently funded under a temporary continuing resolution (P.L. 109-383), which expires on February 15, 2007. For those programs, no information is available on unauthorized funding for 2007 because the full-year appropriations are not yet enacted. Consequently, entries in Appendix A note that fact, and most entries cannot include figures and totals relating to unauthorized appropriations.

Appendix B lists authorizations of appropriations that will expire by the end of fiscal year 2007. That listing does not display any appropriation figures.

The Scorekeeping Unit of CBO’s Budget Analysis Division prepared this report under the direction of Janet Airis. The other members of that unit are Edward Blau, Joanna Capps, Virginia Myers, Jennifer Reynolds, Mark Sanford, and Esther Steinbock. The authors gratefully acknowledge the help of Mary Froehlich and numerous staff members of Congressional committees.

John Skeen edited the report, with assistance from Kate Kelly, and Maureen Costantino prepared the report for publication. Lenny Skutnik produced the printed copies, and Linda Schimmel handled the distribution. Questions about the report should be directed to Janet Airis at (202) 226-2850.

Donald B. Marron

Unauthorized Appropriations and Expiring Authorizations

Overview
Each year, the Congressional Budget Office (CBO) is required to report to the Congress on:

- All programs and activities funded for the current fiscal year for which authorizations for appropriations have expired and
- All programs and activities for which authorizations for appropriations will expire during the current fiscal year.

That requirement is specified in section 202(e)(3) of the Congressional Budget and Impoundment Control Act of 1974.

The purpose of that provision is "to help Congress use the early months of the year to adopt authorizing legislation that must be in place before the regular appropriation bills can be considered." ¹

The Role of Authorizations
The term "authorization" is used to describe two types of law. The first describes an “organic,” or “enabling,” statute, which creates a federal agency, establishes a federal program, prescribes a federal function, or allows a particular federal obligation or expenditure within a program. This type of authorization may continue the federal agency, program, or function indefinitely, or it may continue it for only a specific period of time. Such an authorization may constitute a direct spending program because it contains the direct authority to draw money from the Treasury to implement the statute, or it may simply specify a purpose for which a subsequent appropriation is made available. Although enabling statutes, particularly those whose implementation depends on future appropriation action, are necessary for programs to operate, authorizations of this type are not the focus of this report.

Instead, this report focuses on the second type of law described by the term “authorization”: a specific provision of law that authorizes the appropriation of funds to carry out the program or function established in the enabling statute. Such a provision constitutes guidance to the Congress regarding the amount of funding that will be necessary to implement the enabling statute. An authorization of appropriations may be contained in the enabling statute or may be provided in a separate law. Such an authorization of appropriations may be for a specific dollar amount (definite authorization) or for “such sums as may be necessary” (indefinite authorization) and may be permanent, multiyear, or annual. For the purposes of this report, an appropriation is considered unauthorized when it is made available for a program after that program’s authorization of appropriation has expired. (This report does not address appropriations that have never been authorized.)

House and Senate rules—dating from the 19th century—generally preclude the Congress from considering appropriations that are unauthorized. In both the House and the Senate, legislation containing unauthorized

¹ H. Rept. 99-433, at 114 (1985) (Conference report accompanying the Balanced Budget and Emergency Deficit Control Act of 1985, which amended the Congressional Budget Act to include the requirement for this report).
appropriations is subject to a point of order. However, House and Senate rules are not self-enforcing. An individual Representative or Senator must raise a point of order for the rules to be enforced. If no Member raises a point of order, an unauthorized appropriation may proceed through the legislative process.

Although this report is intended to aid the Congress by identifying those authorizations of appropriations that have expired or will expire, it should not be considered definitive regarding the application of House or Senate rules. What constitutes an “unauthorized appropriation” under such rules is determined by the precedents of the House or Senate, and the applicability of those rules is determined by the respective Office of the Parliamentarian.

Listings of Unauthorized Appropriations and Expiring Authorizations

This report covers all programs funded through the annual appropriation process that at one time had an explicit authorization of appropriations that has expired or will expire this year. Appendix A lists programs that are likely to receive a full-year appropriation for fiscal year 2007 but whose applicable authorization has expired. Appendix B lists programs whose authorization expires at or before the end of fiscal year 2007. The appendixes show the number and name of the public law containing the last authorization, the last year that the authorization was in effect, and the amount authorized in that year. If the authorization was for “such sums as are necessary,” the report shows the amount authorized as “indefinite.”

The information in this report is drawn from CBO’s Legislative Classification System, a database reflecting all public laws that contain nonpermanent authorizations of appropriations—up to and including laws enacted during the just-completed 109th Congress.

In general, House and Senate rules require the appropriations committees, in their reports on general appropriation bills, to identify any programs that are funded in the bills but lack an authorization—including programs for which an explicit authorization of appropriations has never been enacted. This CBO report, as specified by law, covers only programs that at one time had an explicit authorization that either has expired or is scheduled to expire. As mentioned, many laws establish programs with an authorization of appropriations that does not expire. Both the reports of the appropriations committees and this report exclude programs with that type of authorization because its effect is permanent.

Programs Funded in Fiscal Year 2007 with Expired Authorizations of Appropriations

Ordinarily, Appendix A would list programs and activities funded by an appropriation for fiscal year 2007 whose authorization has expired. However, only appropriations for the Departments of Defense and Homeland Security have been enacted for fiscal year 2007. Programs covered by the other nine appropriation acts are currently funded under a temporary continuing resolution that expires on February 15, 2007 (P.L. 109-383). As noted in the entries in Appendix A, information on full-year appropriations for 2007 is not available for those programs. Therefore, this report omits figures and totals on unauthorized appropriations for them.

If a program’s authorization has expired and it received an explicit amount of funding in one of the enacted appropriation acts (for the Departments of Defense and Homeland Security), that amount is shown under “Unauthorized FY 2007 Appropriations” in Appendix A. If no specific amount is provided (as in the case of a small program that is funded at an unidentified level in a large appropriation account, or a program that is funded in several appropriation accounts), CBO determines whether the program is still being funded and if so, whether the program’s authorization has expired.

2. A point of order is an objection raised by a Member of Congress against a piece of legislation or a procedure on the grounds that it violates the rules of the House or Senate. The Presiding Officer decides whether to sustain or overrule the point of order on the basis of the specific rule and precedents under it. The decision of the Presiding Officer is subject to appeal to the full House or Senate, where it can be waived, generally by a majority vote.

3. The House and Senate Appropriations Committees adopted different subcommittee structures for 2006, which is the last year that all of the acts received full-year funding. This report follows the structure used for the 2006 enacted appropriations.
how much is allocated for it. If that amount cannot be
determined, the appendix notes that the specific dollar
amount of unauthorized 2007 appropriations is not
available.

In recent years the total amount of unauthorized appro-
priations reported by CBO has ranged between about
$160 billion and $170 billion. Although specific full-year
appropriations for 2007 do not yet exist for many pro-
grams and activities, enactment of several authorization
acts in 2006 and the early months of fiscal year 2007 has
reduced the amount of unauthorized appropriations in
2007. Of those acts, the one involving the largest sum
reauthorizes the National Institutes of Health (NIH)
through 2009 (in 2006, $28 billion was appropriated for
NIH). Other programs or agencies that recently have
been reauthorized include the Promoting Safe and Stable
Families Program (through 2011), the Export-Import
Bank (through 2011), and the National Transportation
Safety Board (through 2008). Lawmakers also enacted
temporary authorizations for certain Small Business
Administration programs (through February 2, 2007)
and higher education programs (through June 30, 2007).
In addition, the 109th Congress enacted statutes that
extended some authorizations through 2007, including
those for the Department of Defense. The Coast Guard
was reauthorized in the Coast Guard and Maritime
Transportation Act (P.L. 109-241), but only through
2006.

**Authorizations of Appropriations That Expire on or Before September 30, 2007**

Appendix B lists programs and activities with authoriza-
tions of appropriations that expire by the end of fiscal
year 2007. The appendix indicates the amounts *autho-
rized* to be appropriated in 2007 for the expiring pro-
grams and activities, not the amounts actually appropri-
ated for that year.

Definite authorizations contained in laws under the juris-
diction of House and Senate authorizing committees that
will expire by the end of this fiscal year total about $548
billion (see Tables 1, 2, and 3). Most of that amount
(about $526 billion) is authorized in a single law, the
Fiscal Year 2007 (P.L. 109-364), which also includes an
authorization for funding for operations in Iraq and
Afghanistan. Typically, authorizations for defense fund-
ing are renewed annually.

Authorizations for intelligence activities are also usually
renewed annually. However, the authorization for those
activities for 2007 has not yet been enacted. In the
interim, the Congress enacted section 8083 of the
Defense Appropriations Act, 2007 (P.L. 109-289), which
deems as authorized its appropriations for intelligence
activities until the enactment of this year’s intelligence
authorization act.

As in recent years, the total amount of expiring definite
authorizations of appropriations this year is concentrated
in a handful of laws. Of the 68 laws with authorizations
that expire this year, five account for over 99 percent of
the year’s expiring definite authorizations. Conversely, 21
laws have definite authorizations of $50 million or less;
together, they make up less than 1 percent of the total
amount of expiring definite authorizations.

Some of the other large programs and agencies whose
authorizations are expiring in 2007 include the National
Science Foundation (authorized in 2007 at $9.8 billion),
the Low-Income Home Energy Assistance Program
(authorized in 2007 at $5.1 billion), and certain farm
programs authorized in the Farm Security and Rural
Investment Act, 2002 (at $1.0 billion). Laws with
indefinite authorizations expiring in 2007 include the
E-Government Act of 2002 (P.L. 107-347) and the No

---

4. The farm bill also includes numerous expiring programs with
direct spending authority. The $1 billion cited above applies only
to the expiring discretionary authorizations in that legislation.
